GATE
WHAT IT REFUSES
1
Propose
the model's only job
2
Validate
malformed, or a tool version we do not publish
3
Authorize
well-formed, but not permitted for this subject and resource
4
Commit
a duplicate, recognised by its idempotency key
5
Verify
a timeout — unknown effect, reconcile before retrying
6
Accept
evidence missing or staler than policy allows
